## school furniture tables

We have a large variety of tables, the keyword being 'flexibility' with each design. The range combines excellent ergonomic design with practical options for the classroom layout.

Our comprehensive range of tables, styles, shapes and colours offer numerous possibilities for fitting out library study areas, classrooms, multifunction rooms and meeting rooms.

From the i-flip tables and network computer tables, to adjustable height tables and study carrels, we have the ability to cater for any special need. Each table has the option of being grouped in a pod to form a learning hub, or individually. We also offer a 10 year warranty on all fixed and adjustable height desks based on the durability of the product.
