tables meeting | training

Meeting and training room tables have similar options as the boardroom tables; the overall design will encompass size, shape, finish and profile. In addition to the design of these tables, some have the option of easy storage which can include wheel based frames and foldable/flip tops.

Our standard table tops can be specified 25mm or 33mm thick with square or soft rounded corners (50mm radius) however custom edge profiles and finishes are also available on request. The choice of finishes include selected laminates, timber veneers and coated MDF in a range of standard colours.
