worksystems directions

Directions is an extremely versatile modular system which offers many custom configurations, available with our 50mm & 65mm screen panels.

Directions is available in static height, pin and hole adjustment and handle wind adjustment to 900mm high. Privacy screens can be mounted above and below worktops.

Cable management is via a segregated cable basket mounted to the underside of the worktops or via our built in cable duct built into the screen panels, with the options of hard wired or softwired cabling.

worksystems directions

Directions is available in 120 degree, 90 degree, 180 degree and custom configurations. Directions can offer a solution to any high density work space or simply a more private work area for individuals if required. Our standard worktops can be specified 25mm or 33mm thick with square or soft rounded corners (50mm radius). Available finishes include selected laminates, timber veneers and coated MDF in a range of standard colours. Custom edge profiles and finishes are also available upon request. Offering vast design possibilities.
