

Peter and his group, Integrity, proved to be very approachable and professional while carrying out the fit out and re-fit to our Melbourne office. The work was of a high standard and completed within the accepted timeframe.

Peter provided many useful suggestions and guidance in related matters. Peter always worked "with" us and we experienced him as a very personable partner striving to achieve a mutual goal. We were very satisfied with the quality of the finished work and would recommend Peter and his team to others.

Gave the following brief :

- Fitout new area with 2.1m square desks in clusters of 4 in a cross formation, with seating aligned so it faces the centre of the cross (as per Daryl's spec).
- Create a staff staff breakout area in the new tenancy that would accommodate two 3 seater couches and a number of tables that people could sit consume meals
- Remove the walls and destruct the current lab
- Fitout the area of the old lab with workstations (possibly 3)
- Create an opening between our current fitout (most recent extension) and the new area
- Reconfigure air conditioning given the new opening to the tenancy
- Add some colour to the new tenancy
